

Product Information/Variation

Please note all of our lampshades are handmade by us.

Every piece of marbled paper used to create your lampshade is individually produced by hand and therefore each lampshade is unique – no two are the same.

The product photographs on this site are images of one item produced within a “collection” of items and therefore the lampshade you receive may not be identical to the one shown. However, every attempt is made to ensure consistency of colour and pattern placement for each product within a “collection”.

All full lampshades are lined in cream card unless otherwise stated and all half lampshades are finished with a white interior – both comply with BS EN 60598-1-2008, the British Standard for Luminaries.

Whilst we endeavour to photograph goods to the best of our ability, we cannot accept any responsibility for colour variations, as all monitors and mobile devices differ. If you are unsure of the exact colour, please request a sample.
